Data being submitted: Ewe mating list <input type="checkbox"/> Pedigree <input type="checkbox"/> 100 day <input type="checkbox"/> 200 day <input type="checkbox"/> 365 day <input type="checkbox"/> Fleece <input type="checkbox"/>		
Name of group:	Sex: M <input type="checkbox"/> F <input type="checkbox"/>	
Number in group:	Number with 100d BW:	
Dates of data collection are included in the data export file Yes <input type="checkbox"/> No <input type="checkbox"/> <i>If "no" please fill in below</i>		
Ewe Mating List: <i>dd/mm/yy</i>	Start:	Finish:
Lambing Dates:	Start:	Finish:
Pedigree:	Body WT:	EMD/Fat (optional):
Greasy Fleece Weight:	FD and CV:	Other: _____
Classer's Grade:	Visual Scores:	Other: _____
If the group was shorn previous to Fleece Weight shearing, provide date:		

This section to be completed and accompany 100 day data submission

DNA: Do you use DNA parentage testing Yes No **submit samples for Genomics?** Yes No

Date blood samples submitted:		Testing Company:
Number of parentage tests:		Sex: M <input type="checkbox"/> F <input type="checkbox"/>
Number of genomics tests:		Sex: M <input type="checkbox"/> F <input type="checkbox"/>
Will you claim the \$2 rebate from the ADBA for Genomics collection:		Yes <input type="checkbox"/> No <input type="checkbox"/>

Breeders Quality Assurance Declaration: for this data submission.

√

STAGE 1: MATING LIST	
Has the mating list been submitted prior to 35 days of joining ending?	
STAGE 2: 100 DAY	
Have the dry ewes and dead lambs in the drop been sent with this data?	
Was each lamb's pedigree, date of birth and birth status recorded within 14 days of birth?	
Were all uninjured progeny in this group retained and reported for the assessed traits?	
Were all progeny managed the same and together from 14 days after end of lambing?	
Were all progeny in this group assessed for each trait on the same day?	
Have all previous ADBA requirements and this stage been carried out correctly?	
STAGE 3. 365 DAY: INCLUDING EMD & FAT (OPTIONAL), FLEECE, CLASSING	
Were all progeny in this group assessed for each trait on the same day?	
Were all uninjured progeny in this group retained and reported for the assessed traits?	
Were scores done according to the procedures in the 'Visual Sheep Scores' booklet?	
Did an approved ADBA Classer carry out the assessment in the appropriate way?	
Has the group's Assessors Report been submitted along with their performance records?	
Are all progeny that were graded as "C" or "UR" included in the data submitted?	
Have all previous ADBA requirements and this stage been carried out correctly?	
If all the progeny were not managed together record in your data (or below) the sheep in management groups A, B, C, etc and describe the difference between the groups.	
A:	
B:	
C:	

Reports: Please select the type of report you would like to receive.

√
